There is a lot going on in the pedestrian zone today! A rubbish truck driver is angry because the parcel carrier is blocking his way.

What can you find in the toy store window?

And where does the teddy bear sit?

There are also many people in the department store.  
Elif gets to pick out a new dress.  
Malik is playing with his toy digger.

Have you seen the teddy bear?  
And who did Malik just meet?

the shoes

In front of the department store is a beautiful market. At the bakery stand, Elif and Malik need to stand in line for a while. It smells like freshly baked bread there!

What did the cat discover  
in the market?  
And what can you buy there?

the fish

the potatoes

the carrot

the cheese

In the park, they are taking a little break and eat pretzels. After that, Malik plays in the sand with his digger.

Where is the blue sand bucket?  
And what did the dogs see?

the apple

the pretzel

the dog

the shovel

On the way back, they pass the large construction site at the train station. It is quite loud here!

What did Elif discover in the excavation pit?  
And who does Malik wave to?

the suitcase

the clock

running

the helmet

the treasure

the digger

On the way home, they stop by to see Elif's friend from kindergarten. They have a flat above an ice cream parlour. There is a lot going on in their street!
